Guideline for Review paper publication

1. **Title:**
   Create a concise and descriptive title that reflects the main theme or focus of your review.
2. **Abstract: 300 words**
   Summarize the purpose, methodology, key findings, and implications of the review in a brief abstract
3. **Introduction: 300 words min**
   Introduce the research topic and its significance.
   State the objective or purpose of the review.
   Provide an overview of the scope and organization of the paper.
4. **Methodology: 200 words min**
   Describe your search strategy and criteria for selecting the literature.
   Explain how you identified and screened relevant studies or articles.
   Discuss any limitations in your search process or potential biases.
5. **Literature Review: 400 words min**
   Organize the body of your review into sections or themes that relate to the topic.
   Present a critical and organized summary of the relevant research articles.
   Discuss the key findings, methodologies, and contributions of each study.
   Highlight any controversies, gaps, or contradictions in the existing literature.
6. **Discussion: 400 words**
   Analyze and synthesize the findings from the reviewed literature.
   Identify common themes, patterns, and trends in the research.
   Discuss the implications of the findings for the field.
   Offer your own insights and interpretations of the literature.
   Address any limitations in the current research.
7. **Conclusion: 300 words min**
   Summarize the main findings and their implications.
   Provide recommendations for future research or practical applications.
   Reiterate the significance of the topic.
8. **References: min 20**
   List all the sources you cited in your review, following a specific citation style
